

## Create your own WONDER WHEEL!

1. Have an adult help you cut the medallion out along the dotted line.
2. Tie or tape a piece of string to each of the small dots on the edge of the medallion.
3. Hold one string in each hand and twist to watch the penguin hatch over and over again!

What does a daddy buffalo say when his son goes to school? *Bison*

What do you call a lazy baby kangaroo?  
*A pouch potato!*

## STORY OF BUM THE DOG

Bum was a real dog born in San Francisco on July 3, 1886. He came to San Diego as a stowaway on a ship called the *Santa Rosa*. No one owned Bum but everyone took care of him. One day, Bum got into a fight with another dog at the Santa Fe Depot train station. A train hit them and Bum lost his paw, but he kept right on exploring the city. Bum was a friend to many people. He was so loved by San Diegans, his picture was placed on the city's dog license. His memory lives on with the San Diego History Center's Kids Club.

# Bum meets amazing animal parents!

Bum is always interested to learn about animal families and he loves the San Diego Zoo. Join Bum as he explores the world of Zoo animal babies to celebrate mothers and fathers of all kinds.

Help the baby hippopotamus get back to its mama hippopotamus.

Create your own  
**WONDER WHEEL!**

You found her!

Start here

Use a crayon or pencil to find a path through the maze that leads to the mama hippopotamus. If you get to a dead end, go back and try a different path.

1. Have an adult help you cut the medallion out along the dotted line.
2. Tie or tape a piece of string to each of the small dots on the edge of the medallion.
3. Hold one string in each hand and twist to watch the penguin hatch over and over again!

## Unscramble the highlighted words to learn more about baby animals at the San Diego Zoo!

Poison frog babies hatch from eggs and have help from both staprne as they grow up. Baby poison frogs start out as toseapld and go through many stages before they look like their parents. \_\_\_\_\_

**Psst!** Bum says come check your answers in the *Roar! Family Den* and learn more about zoo animals!

African penguin babies and laughing kookaburra babies both hatch from eggs and are called cikcsh. Both parents help to care for these babies as they become full grown birds. \_\_\_\_\_

Armadillos also give birth to live young, their babies are called psup and they stay with their mother for the first couple years of their lives. \_\_\_\_\_
